Bibliographies in this series are derived from computerized on-line searches of selected data bases. Timeliness of the topic and evidence of extensive interest are selection criteria. Comprehensive subject coverage is not an objective; however, the citations provide a substantial recent resource for investigation of the subject. Each bibliography is updated or dropped after six months.

Copies of this bibliography may be made for use or distribution without prior approval. The inclusion or omission of a particular publication or citation may not be construed as endorsement or disapproval.

To request a copy of a bibliography in this series, send the title, series number, and a return addressed gummed label to:

UNITED STATES DEPARTMENT OF AGRICULTURE
SCIENCE AND EDUCATION ADMINISTRATION

OFFICE OF THE DEPUTY DIRECTOR FOR
TECHNICAL INFORMATION SYSTEMS
NATIONAL AGRICULTURAL LIBRARY BUILDING
BELTSVILLE, MARYLAND 20705

PHOTODUPLICATION SERVICE CHARGES

We recently reviewed the procedures in our Photoduplication Section. As a result of this review, several changes have been made.

1. Request Forms. The NAL Request for Photoduplication form should no longer be used by libraries requesting items from us. Instead, requests from libraries should be submitted on the American Library Association Interlibrary Loan Request form.
2. Coupons. NAL coupons will no longer be issued. Coupons on hand may be sent with orders until further notice. If coupons are sent and a request cannot be filled, a credit memo will be issued. No coupons will be returned.

Alternatively, coupons on hand may be redeemed for cash. A request for redemption accompanied by the coupons should be sent to USDA/SEA/TIS, Photoduplication Section, National Agricultural Library Building, Beltsville, Maryland 20705.

3. Billing. A bill will be sent for any photocopy which we supply. The billing will be sent separately from the photocopy. Bills will be issued by the USDA/SEA, Financial Management Division, South Building, Room 6017, Washington, D.C. 20250.

JENNIE L. BROGDON, Head
Utilization Section

Availability of Cited References

Books. The National Agricultural Library (NAL) lends books, other than rare books, or those on reserve, or in the reference collection, to U.S. Department of Agriculture employees. Non-USDA individuals should arrange interlibrary loan through their local public, university, or special library.

1. Form: The American Library Association's (ALA) Interlibrary Loan Request form is preferred. Citations should be as complete as possible and the source of reference should be provided if known. Please use one form for each item requested. TWX requests are accepted. NAL's number is 710-828-0506.
2. Loan Period and Renewals: Material is loaned for 30 days from date it is charged at NAL. Renewals should be requested by phone (301-344-3761).
3. Delivery and Returns: All loans will be sent first class and should be returned in the same manner. The borrowing library is responsible from the moment of dispatch for any loss or damage incurred.

Periodicals. Periodicals and other non-circulating materials are not available for loan but may be used in NAL or in its designated reading rooms in the Washington, D.C. area.

Photocopy of journal articles. Photocopy of journal articles will be sent in lieu of loan to USDA employees, 1890 land-grant institutes, and libraries with which NAL has a reciprocal arrangement. USDA EMPLOYEES SHOULD SUBMIT REQUESTS ON FORM AD-245. These forms are available from their procurement office. Requestors not in one of the above categories may purchase reproductions of journal articles, technical papers, reports, etc., in the NAL collection as outlined below:

1. Form: Please use USDA Request for Photocopying forms (LF-607). These forms are available from NAL upon request. Use one for each citation. Requests should be as complete as possible with a minimum of abbreviation. Indicate whether xerographic copy or microfilm is desired and sign each order form. If an alternate form is used, please send in triplicate.
2. Rate: (Subject to increase)
Xerographic Copy: \$2.00 for each 10 pages or fraction copied from a single article or book.
Microfilm (35mm): \$1.00 for each 30 pages or fraction copied from a single article or book.
3. Payment: Users with heavy or continuous volume may request monthly billing or pay for requests with NAL coupons. These coupons may be purchased in any quantity at \$1.00 each. Payment (check or money order payable to the National Agricultural Library) must accompany NAL coupon orders. Attach the necessary number of coupons to each LF-607 submitted. Occasional or one time users should enclosed a check or money order with each request or group of requests.

4. Restrictions: Reproductions will be made only from material in the NAL collection. Monographs will not be copied in their entirety (see Interlibrary Loan Service above). Special arrangements must be made for microfilm of entire issues or long runs of a journal title.

Requests for the services described above should be sent to:

U.S. Department of Agriculture
National Agricultural Library
Lending Division
Beltsville, Maryland 20705

Questions concerning these services should be directed to the attention of the Chief, Lending Division.
